The Reciprocity Treaty.

WASHINGTON, Monday, Nov. 6.

Mr. PERLY, of New-Brunswick, returned here on Saturday from Quebec, on business connected with the Reciprocity Treaty, and had interviews with the President, Secretaries MARCY and CUSHING, and Mr. CRAMPTON.

Canada and New-Brunswick having affirmed the Treaty by legislative enactments, and provided for its going into immediate operation, this Government has promptly consented to admit the produce of those Provinces into the United States on the terms recently established with respect to Colonial fish, and another Treasury Circular is to be issued accordingly.

The produce of Prince Edward's Island would be included in this circular, but no official information of the legislative proceedings in that Colony has yet reached here.

The provinces are much indebted to Mr. PERLY for his energetic and successful exertions in their behalf. He left here this evening, and it is said proceeds to Nova Scotia, which province has not yet taken any action on the treaty, and is therefore excluded from the advantages of the present arrangement.

It is reported here that Sir EDMUND HEAD will leave Boston to-morrow for Canada to assume the post of Governor General, and that Lord ELGIN will very shortly sail for England, first visiting New-York and Washington.

Murders in Philadelphia.

PHILADELPHIA, Monday, Nov. 6.

PAMELA MYERS, alias SNYDER, is the name of the woman who is charged with the murder of her illegitimate children. She confessed this afternoon to the Mayor to having in succession killed five of her children as soon as born—two by one father and three by another. The last child was born five days since, and was made away with, like the others, by being thrown into the sink. The first information of this horrible disclosure was given to the Mayor by an anonymous letter. The affair happened at "Nicouten," in the upper part of the city. The hearing did not take place this afternoon, as the miserable woman was too ill to be present.

Arrival of the City of Manchester—Murders in Philadelphia.

PHILADELPHIA, Monday, Nov. 6.

The screw steamship *City of Manchester*, Capt WYLIE, from Liverpool on the 25th ultimo, with 464 passengers, arrived here this morning. She reports encountering severe weather on the passage.

Our city police are investigating a series of mysterious murders in the upper section of this city. A woman has been arrested, charged with the murder of her two illegitimate children; and an Irishman has also been arrested, charged with being implicated in the same affair. The murders occurred some time since, and the bodies have not yet been found. A hearing in the case will take place this afternoon.

Death of United States Commissioner Ingraham.

PHILADELPHIA, Monday, Nov. 6.

EDWARD D. INGRAHAM, an eminent lawyer and a United States Commissioner, died in this city to-day.

Temperance Convention—Fire—Man Drowned.

TROY, Monday, Nov. 6.

A Temperance Mass Meeting was held in this city to-night, at which Rev. Dr. BEMAN, of this city, and S. H. HAMMOND, Esq., of the Albany Register, were the speakers.

A fire broke out this evening in St. Mary's Orphan Asylum, but fortunately the flames were suppressed before any serious damage was done. The loss sustained is about $1,000. Insured.

A man, name not known, fell into the Poesten-kill Creek to-night, while crossing the bridge over that stream in South Troy, and was drowned. His body has not yet been recovered.

Temperance Rally at Albany.

ALBANY, Monday, Nov. 6.

The temperance friends of CLARK and RAYMOND had another tremendous rally at the Capitol to-night. The spacious hall in which they assembled was crowded to excess, and many hundreds went away unable to get in.

Rev. E. H. CHAPIN, of New-York, addressed the meeting for nearly two hours in a speech in which for logic and eloquence, has scarcely ever been surpassed.

The enthusiasm of the meeting was beyond all bounds.

Governor Seymour and the Pardon of Dr. Graham.

ALBANY, Monday, Nov. 6.

Governor SEYMOUR, immediately on reading the charge in the *Tribune*, this morning, that he had promised to pardon Dr. GRAHAM, convicted of the manslaughter of Col. LOCKE, has authorized the Albany *Atlas* to pronounce the story entirely and unqualifiedly false.

Departure of the Sarah Sands.

PORTLAND, Monday, Nov. 6.

The screw steamship *Sarah Sands* sailed yesterday for Liverpool with six cabin and a few steerage passengers, and a small freight.

The *Chesapeake* and *Ontario* having been taken by the British Government to convey troops to Constantinople, the *Canadian*, a new steamer, will be the next due at this port.

The Recent Accident on the Great Western Railroads.

QUEBEC, Monday, Nov. 6.

Government has appointed a Commission to inquire into the cause of the recent frightful accident on the Great Western Railroad near Chatham. The Commissioner will proceed at once to the scene of the disaster.

Health of Charleston.

CHARLESTON, Monday, Nov. 6.

The Courier will state to-morrow morning's edition, on the authority of the leading physicians of the city, that it is perfectly safe for absentees to return, and that strangers can visit Charleston without fear of danger to themselves.

State Politics.

BUFFALO, Monday, Nov. 6.

Geo. W. PATTERSON and W. P. ANGEL, the Whig and Democratic candidates for Congress, in Chautauque and Cattaraugus Counties, have withdrawn from the contest, and EDWARDS, the Know-Nothing, and FENTON, the Democratic candidates, are alone on the course.

In this District, HAVENS' defeat is deemed more than probable, the regular organization of Free Soil Whigs being established against him.

Canal Break.

BUFFALO, Monday, Nov. 6.

A bad break occurred in the Erie Canal yesterday, at Bushnell's Basin. It will take three days to repair it.

The Southern Mails.

BALTIMORE, Monday, Nov. 6.

Charleston papers of Thursday, Friday and Saturday last are received, but three mails from points south of Charleston are still due.

The City Returns.

The City Returns for all the papers will be made up at the *Tribune* Office. Inspectors will please furnish the Messengers with the returns at the earliest moment, and Clerks and Police Officers on duty will confer an especial favor in seeing that the blanks not called for are filled up and transmitted without delay. The canvass in the City ought to proceed as follows:

Box No. 1—STATE, CITY AND COUNTY.
Box No. 5—CONGRESS.
Box No. 3—ASSEMBLY.
Box No. 4—CHANTER.
Box No. 5—JUSTICES.
Box No. —COMMON SCHOOLS.

Should all the Inspectors canvass in this order, the general result will be much sooner known than if a Charter or Assembly box is first taken up. We hope such will be the course; but, at any rate, for the State, City, and County box be canvassed first in every district.

Municipal Reform.

FINAL APPEAL.

MUNICIPAL REFORM COMMITTEE,
Monday Evening, Nov. 6.

FELLOW CITIZENS: The Committee have taken pains to ascertain which of the candidates for the Mayoralty is most likely to defeat the election of FERNANDO WOOD, and, from a survey of the whole ground, they are perfectly satisfied that upon

WILSON G. HUNT,

the Reform Candidate, the largest number of the opponents of WOOD will unite.

This opinion is strengthened by the fact that in view Wood's connection with the Know-Nothing Order, a point now well established, he cannot command the vote even of that section of the Democratic party to which he belongs, while he is already openly and earnestly opposed by the portion of the party that polled the largest vote at the late election.

Towards Mr. HERRICK there is wide-spread dissatisfaction on account of the character of the Convention which nominated him, and a settled purpose is evinced by a large body of Whigs to break down the present system of Primary Election by withholding their votes from any candidate presented under such auspices.

The objections to Mr. BARKER are by no means confined to an increasing dislike to the proscriptive principles of which he is the most prominent expounent. These alone would be fatal to his success, amid a population embracing so many citizens born in other lands, but none the less deeply attached to the country of their adoption on that account, and justly incensed at the existence of a secret society formed for the exclusive purpose of depriving them of the rights guaranteed to them by the Constitution and Laws.

Under these circumstances,

WILSON G. HUNT

is the only man on whom the friends of good government can concentrate their votes, with a reasonable hope of success. Against him not a single objection has been raised. His high character, his perfect integrity, his energy, activity, and intimate acquaintance with the wants and requirements of the community, and his deep sense of the responsibilities of the office of Mayor, all point to him as the MAN FOR THE OCCASION. His election would give satisfaction to the mass of the supporters of each of the other nominees, and would be received with very general acclamation by all classes.

The Committee therefore earnestly entreat their fellow-citizens to vote for

WILSON G. HUNT,

and to resist all appeals to vote for any other candidate.

The Polls will be opened at 37 minutes past 6 A. M., and close at 10 minutes before 5 P. M.

PETER COOPER, Chairman.
ISAAC H. BAILEY, Secretary.

A few Facts for the Consideration of Honest Voters.

There is no doubt that the honest vote of New-York is against FERNANDO WOOD two to one. But by a division of that vote on three candidates, WOOD must receive a plurality, and thus be elected next Mayor of New-York. The combined efforts of the Soft-Shells, the Custom-House and the Liquor Dealers, will in all probability carry the SEYMOUR vote up to 25,000. Now the name of FERNANDO WOOD is on the same ticket, and it is not safe to calculate that over 6,000 of these voters will erase the name of FERNANDO WOOD. This would leave his vote for Mayor at 19,000.

The Know-Nothing organizations of the City, as admitted by all parties, control some 18,000 votes. This vote comes principally from the Whig party—made up of about 12,000 Whigs and 6,000 Democrats. BARKER will get nearly all this vote—certainly not more than 3,000 will be drawn off for the other candidates. This would give BARKER 15,000 from that quarter alone. In addition to this, BARKER will probably get 3,000 more outside of the American vote from disaffected Whigs, no party, Temperance, and Churchmen. This calculation would make his total vote 18,000. The Whig vote of the City is about 24,000, and as we see above, one-half of it has been lost on the American issue—leaving just 12,000 votes. Of this 12,000, it is fair to presume that at least 4,000 will go over to HUNT on the Reform issue. HERRICK then has only 8,000 left. Giving WILSON G. HUNT the 4,000 Whig Reform votes alluded to above, and the 6,000 honest Democratic votes that do not go WOOD, even though he has the Tammany Hall and Stuyvesant Institute nominations, and we have an aggregate Reform vote of good 10,000 for WILSON G. HUNT. This would fost up the results as follows:

Wood (and disgrace!)	10,000
Barker	15,000
Hunt	10,000
Herrick	6,000
Making an aggregate vote on Mayor of	35,000

This supposes the Democratic vote to be 31,000, and the Whig vote 24,000. On Governor, the vote will be considerably larger,—perhaps 60,000,—for the reason that a great many who vote for SEYMOUR will simply erase the name of WOOD without substituting any other in its place. With these probabilities before us, what is our duty, if we are friends of HUNT or HERRICK? Why, simply to abandon our preferences, and elect the only man who can be elected over WOOD.

Citizens of New-York, ponder over these figures, and you will find that the only chance to save the City from two years' disgrace and infamy is to unitedly vote for JAMES W. BARKER. The writer has been carefully watching the progress of this election, and believes that his calculations are so near actual facts, that many good, honest voters will regret not heading his proving, if Mr. BARKER should be defeated by FERNANDO WOOD.

Having no particular preference for either of the three candidates now in the field against FERNANDO WOOD, I do not care to say ought for or against them. That either is infinitely preferable to WOOD, no one in his senses will question. But, as we can't elect them all, common sense would seem to dictate that we should select from among them the strongest candidate, to prevent the election of a very bad man.

The Slanders Against James W. Barker.

Let honest, intelligent Americans read the plain facts on which the *Tribune's* affidavit against JAMES W. BARKER are based, and see in what base purposes this *English* slanderer has lent himself, to strike down, on the eve of an important election, an honorable and high-minded American citizen! For the honor of our country we are glad that no American could be found base enough to endorse this villanous attack except the editor of the *New-York Tribune*. If there had been any doubt of his election, this onslaught would have of itself been sufficient to make JAMES W. BARKER the next Mayor of New-York.

From the Evening Express.

The following affidavits and testimony have been placed in our possession in reply to the publication in to-day's *Tribune*, signed "G. COOPER."

It will be seen that Mr. COOPER was prompted to this publication by the admission that he was "persecuted and his character attempted to be blasted by Mr. BARKER." Under this feeling the publication is made.

The reply we publish has been handed us by Justice STUART. It was furnished by Mr. STUART from a sense of justice to Mr. BARKER.

Immediately after the fire in Mr. BARKER'S store, he offered a reward of one thousand dollars to discover the incendiary, and made oath to the following:

MR. BARKER'S STATEMENT.

City and County of New-York, ss.—James W. Barker, of No. 71 Catharine-street, being duly sworn, deposes and says, that on Sunday morning, June 11, 1845, the store of Barker & Towle, of the said number, was discovered to be on fire; and further, that a part of the said storehouse and a certain part of the goods therein were consumed and burned, and still another part greatly damaged by fire and water; deponent adds that he has great cause to believe, and does believe, that the said store was feloniously set fire to by some person or persons unknown, for the purpose of burning and destroying it; deponent prays that the proper authorities may investigate into the cause and origin of said fire, and discover and punish, if possible, the person or persons guilty of the offence aforesaid; and further says not.

J. W. BARKER.

Sworn before me, Aug. 1, 1845.

R. W. ONDERDONK, Special Justice.

Every clerk, porter and employé in Mr. Barker's store was, on his order, required to be examined, under oath, Mr. B. being convinced that his store was set on fire.

Under this examination we have as follows:

MR. COOPER'S STATEMENT.

City and County of New-York, ss.—George Cooper, of No. 38 Nesbit, being duly sworn, deposes and says, that he was a clerk in the dry goods store of Barker & Towle for the last six years, and up until within a few days past. Deponent says that he was in the store on the day previous to the fire, and "opened the windows," placing a large amount of rich and valuable silk, and other goods in "the window;" deponent left the store at about 6 o'clock on the evening previous to the fire; deponent went immediately home and did not go out again that night, except to pump for his wife's mother, and returned again with her; after which he continued to have all night; deponent further says that at about 5 o'clock in the morning he heard the alarm of fire, and immediately thought or imagined that it was the store in which deponent was then clerk, in Messrs. Barker & Towle's; deponent was impressed with this opinion by a kind of dream he had that night; and; deponent mentioned the circumstance to his wife who told him that if it should be that store she should think almost that he had been down and set it on fire; deponent got up and went down to the fire; it seemed to be between 5 o'clock, when deponent arrived at the store; deponent has been informed that Mr. Rowe Towle only slept in the store that night; deponent says they are common tumbler locks which fastened the doors of said store; deponent says that he was the first who found those said locks among the ruins after the fire; deponent says that the bolts of the said locks were shoved back, evidently shewing, as deponent believes that the doors had not been broken open, but that the bolts had been turned back with a key; deponent remained at the fire until it was all over; deponent says that he has no cause to suspect any one of having committed the offence.

Sworn before me, June 14, 1854.

W. WALE DEBNEKE, Special Justice.

GEORGE COOPER.

After this evidence of Mr. Cooper, and others of his character, Mr. George Atwood voluntarily appeared before the Police Court and gave the following testimony:

MR. ATWOOD'S STATEMENT.

City and County of New-York, ss.—George Atwood, of No. 316 Washington-street, being duly sworn, deposes and says: that on Sunday morning, the 11th day of May last past, deponent was passing along down Catharine-street at about 5 o'clock in the morning, when he saw a man standing very near the dry-goods store of Barker & Towle, of same street. Deponent says that when he first saw the said man, he (the man) was within three feet, or thereabouts, of the door of said store. Deponent says he continued to walk along a short distance further, (unobserved by said man,) when he saw the man step close up to the door of said store and look around him, as if to see if any one was alarmed, and seeing nobody, stooped down to the bottom of said door, and directly in the centre of the door, and rub something against the door in the previous manner and action as if he was igniting a lucifer match. Deponent says he continued in this stooping position for half a minute or so, when he raised up and placed the side of his foot close to the bottom of the door, and immediately where he the moment before had been at work doing something. Deponent says that as the said man rose up, he for the first time discovered deponent, and instantly appeared to be very much alarmed, so much so that his appearance and action attracted deponent's particular attention, so that deponent took very special notice of him, and wondered to himself what could possibly so excite and disturb the said man. Deponent says that he was at this time within three or four feet distance from the said man. Deponent took particular notice of him, from the circumstances stated above. Deponent saw the said man fall in the fire, and can identify him again without the probability, and, as deponent verily believes, without the possibility of mistake. Deponent says that at the time he saw him, as above stated, he looked pale, very much agitated and frightened, and appeared to look and act as if conscious of what deponent had caught him in the act of some most dreadful crime or offense; and deponent did at that moment (from his very looks and actions) verily believe that he was in the act of attempting the entire, by false keys or otherwise, the said store, or of doing some other wrong or crime. Deponent says he continued to walk on a short distance past the said store, when he turned and looked around, and saw the said man start hastily away from the said door and go up the street in a contrary direction from the way deponent was going. Deponent says that after the said man got a short distance from the door of said store, he returned upon a very fast walk, and finally upon a run. The said man continued up the said street until he came to the corner of Madison and Catharine-streets, and passed out of deponent's sight. Deponent went on to the store of Richard Greene, corner Pike and South-streets. Just as deponent had arrived at the store of said Green, he heard an alarm of fire, and which was about five minutes, possibly ten, after he had seen the said man at the store of Barker & Towle, as aforesaid. Deponent says that he soon after discovered that the fire was in Catharine-street, and on going to the place of the fire found that it was the same store at which he a short time before had seen the said man. Deponent says he went in at once, without hearing anything as to the origin of the fire; full of the notion that the said store had been set on fire by the said man, before alluded to, and at the time deponent had seen him at the said store door, as above stated. Deponent says that he, on that same day, mentioned the above related circumstances to the aforenamed Green and others.

Deponent further says that he has once since seen the very self-same man he saw at the store on the morning of the 11th day of May, as aforesaid. Deponent saw that said man on Wednesday of this week, (16th day of July inst.,) at the dry goods store of Mr. Hall, in Catharine-street, opposite Cock's store, and knows and verily believes that the said man's name is Geo. Cassel.

Deponent is not mistaken as to identity, but is certain that this said George Cooper is the very man deponent saw at the door of Barker & Towle's store at about 5 o'clock on Sunday morning, May 11, in the situation and under the circumstances before related; and further this deponent saith not.

GEORGE ATWOOD.

Sworn before me, July 18, 1845.

W. WALE DEBNEKE, Special Justice.

Under this allegation against Mr. Cooper, he was summoned before the Court, and answered as follows:

MR. COOPER'S EXAMINATION.

City and County of New-York, ss.—George Cooper, being duly examined according to law, on the annexed charge, and being fully advised of his rights by Justice Osborne, states as follows, viz.:

Q.—Where were you born—how old are you—what is your business—where do you now live?

A.—Born in London—am 21 years of age—am a clerk and live at No. 20 Norfolk-street.

Q.—What have you to say in relation to the charge here preferred against you?

A.—I decline giving any answers to questions by advice of my counsel, Thomas Warner, Esq.

Taken before me, July 28, 1845.

GEORGE COOPER.

Mr. Cooper feels justified for his attack in the *Tribune*, because he was arraigned by Mr. Barker on the allegation of Mr. Atwood. Not content with a verdict in his favor upon that occasion, he voluntarily, only a few days before election, appears with a statement insinuating that Mr. Barker was the incendiary of his own store!

The charge against himself was ignored, but in pure revenge and wantonness he assails a man, a candidate for public office, when it is too late to refute the charges against him.

A true man, or one who really wished to render the public a service, would hardly have delayed a publication of this sort to the last hours preceding the election.

Mr. Barker has gained sympathy and friends by this cruel attack upon his character, as is shown by the mercantile tribute of respect in to-day's *Express*. We feel space to publish a title of the records laid before us in his favor.

The statement of Messrs. Falconer, Claflin & Lader is a full reply to Mr. Cooper's statement.

TO THE PUBLIC.

A REFUTATION OF A WICKED LIBEL ON JAMES W. BARKER.

Having read in the *Tribune* of this morning an affidavit of George Cooper, insinuating that James W. Barker, a candidate for Mayor, set fire to his own store in 1845, and our firms having been the principal creditors of Messrs. Barker & Towle at that time, we do unhesitatingly pronounce the affidavit of said Cooper as false and untrue in all its material statements, the facts being, to the best of our recollection and belief, that the amount of their stock at the time of the fire, was between sixty and seventy thousand dollars, and the amount of their insurance was $28,000. A policy of $5,000 having expired a few days previous without renewal.

We make this statement in justice to James W. Barker, and without his knowledge or solicitation.

NEW-YORK, Nov. 6, 1854.

HORACE B. CLAFLIN, of the firm of Bulkley & Claflin, now at No. 111 Broadway.
LEWIS B. LODER,
Of the firm of Loder & Co., No. 58 Cedar-street.

The publication of the attack in the *Tribune* has also called out the following:

LETTER TO MR. BARKER.

FRIEND BARKER:—We have called on you for the purpose of tendering to you our sympathy, in view of the outrageous attack on your moral character in the *Tribune* of this date. We are convinced that it will tend to your advantage rather than injury, and we beg to assure you of our sincere sympathy and respect. Your friends,

WALTER BIRD,

First Ward.

FIRST WARD.—The Reform Committee have ratified the nomination of HENRY SMITH and JOHN F. PARKER as candidates for Councilmen in the First and Second Districts of the First Ward.

Fifth Ward.

Mr. CHARLES S. TAPPEN, who has been nominated on the Whig Candidate for Alderman in the Fifth Ward, was rejected by the Reform Committee because he appeared on the books of the N. Y. and Erie Railroad Company, of which he is freight agent at the Duane-st. Station, as indebted to the Company over $25,000. From this fact the Reform Committee reported that he was a defaulter to that amount. Mr. TAPPEN obtained from the President of the Road the following note in explanation, on receiving which the Reform Committee reconsidered their action:

OFFICE OF THE NEW-YORK AND ERIE RAILROAD CO.,
NEW-YORK, SATURDAY, Nov. 4.

DEAR SIR:—By request, Mr. SHEPPARD has furnished me a statement of the balance of your account to appear at the (Democratic) New-York station.

The whole amount of bills charged to the New-York Station during your agency was $4,467,000 00.

The Investigating Committee found the balance uncollected $28,336 60, which at that time was correct.

Of this amount $15,446 09 is offset by claims against the Company, about $10,000 of which has been recently settled and the vouchers furnished.

A further sum of $6,000 44, composed of goods in store, charges omitted on goods forwarded from Piermont, errors in way-bills not corrected, goods not delivered on which the way-bills are charged, and perishable property—the freights being uncollected, sundry small charges on unadjusted bills, amounting to about $4,000, will make up the sum reported due from the Station.

Of the last amount about $1,000 may be collected.

I regret this subject has not received earlier attention, in which event the amount would have been balanced before the close of the last year.

Respectfully yours &c.,

HOMER RAMSDELL, President.

MR. CHARLES S. TAPPEN.

Capt. Marshall and the Collins Steamers.

It having been reported in the Eleventh Ward that C. E. MARSHALL opposed the COLLINS line of steamships, we publish the following letter from Mr. COLLINS, which sets the public right in that respect:

NEW-YORK, Monday, Nov. 6, 1854.

DEAR SIR: In reply to yours of 4th inst., I have to state that Mr. MARSHALL not only signed the petition to Congress in behalf of the COLLINS line of steamers, but added that the *Star* ought to be continued at all hazards, and I am happy to state that he still adheres to the same opinion. Respectfully yours,

(Signed) EDWARD K. COLLINS.

The Third Congressional District.

I see that my name is presented in your paper as a candidate for Congress. I am not a candidate, nor can I be one under any circumstances. Yours, truly, C. A. STETSON.

ASTOR HOUSE, Nov. 5, 1854.

Fifteenth Ward—Whigs Beware.

The Regular Whig and City Reform Candidates for City Councilmen in the Fifteenth Ward are—39th District, WILLIAM M. VERMILYE; 40th District, OTIS D. SWAN; 41st District, Dr. JOHN W. SCOTT, in place of EDWIN J. BROWN, declined. For the Assembly, (13th Assembly District, composed of Fifteenth Ward,) R. M. BLATCHFORD is the Regular Whig. A mixed ticket, differing from the above, and designed to defeat one or more of the regular nominees, is said to be in circulation through the Ward. The Whigs who mean to secure the right Assemblyman, and the Whigs and true friends of City reform, who desire to have their sentiments represented in Councils, are forewarned accordingly. Their power in the Ward, if united, is unquestioned; divided, their will may be defeated by a cunning minority.—*Commercial Advertiser*.

The Case of Dr. Graham—Note from Dr. Graham.

City Prison, Monday, Nov. 6, 1854.

To the Editor of the Herald:

SIR: I see in the *Herald* of this morning a telegraphic dispatch dated New-Orleans, Nov. 2, which says, "The friends of Dr. GRAHAM have received assurances from New-York that Gov. SEYMOUR had promised to pardon him, so that though sentenced to the State Prison, he will be released before entering the prison doors." Permit me to say that Gov. SEYMOUR never has been spoken to by any friend or other in relation to the matter, one way or another, and that I believe the report to be a malicious and unjustified falsehood, intended to prejudice the public against me, on the very day my case was to come before the Court on a motion for a new trial, and at the same time to injure Gov. SEYMOUR before the public in the election which takes place to-morrow. In justice to myself, and truth, I must ask that you will insert this in your paper.

I have the honor to be your obedient servant,

R. M. GRAHAM.

THE BILL OF EXCEPTIONS—NOTE FROM C. S. SHEPARD, Esq.

NEW-YORK, Monday, Nov. 6, 1854.

To the Editor of the Evening Post:

SIR: It is stated in the *Tribune* of this morning that "no bill of exceptions has been presented, nor any steps taken to prevent the granting of sentence on GRAHAM, according to the verdict of the Jury."

This statement is wholly false. Twenty days' stay of proceedings were asked by the counsel for the defendant, and granted by the Court, in order to prepare a bill of exceptions. More than five days ago that bill was presented to me.

It was presented to the Court this morning, and could not have been sooner presented, because the Court has not before been in session since the expiration of the twenty days.

It is further stated by the *Tribune*, that this assertion (which I have shown to be wholly false) is explained by the fact "that GRAHAM'S friends have received assurances from New-York to the effect that Governor SEYMOUR has promised to pardon GRAHAM before he enters the State Prison."

You will notice that it is not charged that Governor SEYMOUR has given such assurance, or that any person has been authorized by him to give such assurances; and also that the charge is published on the day before the election, and during the absence of the Governor from this City, so that it cannot be contradicted by his authority until after the election.

The statement, therefore, bears upon its face the strongest marks of being a malicious electioneering lie, as detestable as it is cowardly.

I cannot, in conclusion, but express my regret that this lie should have received currency and endorsement in a journal which lays claim to the highest order of morality and the most scrupulous justice.

Truly yours, C. S. SHEPARD.

EXPLICIT CONTRADICTION.

The following letter we find in the *Day Book* of last evening:

ALBANY, Monday, Nov. 6, 1854.

To John J. Mumford:

DEAR SIR: The statement that I promised a pardon to Dr. GRAHAM is UNTRUE. I have never been spoken to about the case in any way. Nor has it been before me in any form. HORATIO SEYMOUR.

The Brooklyn Candidate for Congress.

From the Brooklyn Star.

Mr. STRAHAHAN is known personally to the great body of our citizens, and to such it is not necessary to say a word in his favor. In his business, political and social relations, he has gone in and out before them for many years, and has maintained a character for great natural capacity, great business tact and energy, a calm and safe judgment of men and things, and an integrity that is without stain. He is a man who thinks for himself; whose opinions are undismissed; and who, firmly and steadily, acts upon his principles always and everywhere. It is time that Brooklyn was represented in Congress by a man. We have had enough of men who could neither think or speak; who could not originate an idea, or be any thing but the echoes and servile copyists and followers of other men. Mr. STRAHAHAN does not belong to that class, or even to that genus. We boast nothing in proclaiming, that if Mr. STRAHAHAN shall represent this District in Congress, he will exhibit, upon the largest questions, one of the most comprehensive and sound minds in that body; while in matters local and sectional, there will be nothing that the District can fairly ask for, which his tact and energy will fail to secure. A sound-headed, sound-hearted, high-spirited, patriotic citizen, is required to represent us; and all those qualities, in an eminent degree, are found united in Mr. STRAHAHAN. The district will acquire more honor than it confers by electing him to Congress.

NEW-JERSEY.

Hudson County Politics.

The contest to-day will be a spirited one in Jersey City, and throughout Hudson County, owing to the doubt which hangs over the result, stimulating each party to unusual efforts for success. The principal contention will be upon the office of County Clerk, for which there are a Whig, a Democratic and an Independent Candidate. The native and foreign feeling is strongly awakened with reference to the election of this officer; and it is doubtful what will be the result. There is a great deal of activity among politicians, although it is mostly of a quiet nature. A reclamation meeting was called by the Whigs for Saturday evening; and, not by the Democrats for last evening, both of which were somewhat silenced. The politicians are also circulating a discovery said to have been made by some of them that the "Know-Nothings" can poll 1,000 votes in the County—which would be serious if true as to the result. The following are the

United States Papers with Russia.

The following is an official copy of the late treaty between the United States and Russia:

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

Whereas, a convention between the United States of America and his Majesty the Emperor of all the Russias was concluded and signed by their respective Plenipotentiaries, at Washington, on the 22d day of July last, which convention, being in the English language, is word for word as follows:

The United States of America and His Majesty the Emperor of all the Russias, equally animated with a desire to settle, in a manner as much as possible conformable to the principles and practice of nations, and to secure forever, by a clear and precise declaration, the rights of neutrality on the sea, which they recognize as one of the most important points of the law of nations; and having, moreover, in view the relations of good understanding which have at all times so happily subsisted between the inhabitants of their respective States, have mutually agreed to proceed, by means of a friendly and special convention, to the complete development and confirmation, in case of need, of the principles of the rights of neutrals at sea, which form the basis of the liberal and judicious conditions of all treaties of navigation and commerce and maritime trade. For this purpose, the President of the United States has conferred full powers on WILLIAM L. MARCY, Secretary of State of the United States; and his Majesty the

☞ To the Democratic Voters of the Ninth Congressional District—Westchester, Rockland and Putnam Counties—ATTENTION—GERMANS 1848—MEN OF '48 AND JACKSON DEMOCRATS—FRAUD! FRAUD! FRAUD!!!

The enemy is in the camp. They are seeking to secure your votes for their "Know-Nothing" Ticket. Here is a copy of the spurious ticket:

For Governor—Myron Clark, Democrat, Conservative.
For Lieutenant-Governor—Gustavus A. Scroggs, Know-Nothing.
For Canal Commissioner—Josiah B. Williams, Know-Nothing.
For State Prison Inspector—James F. Sanders, Know-Nothing.
For Representative in Congress—Bayard Clark, Know-Nothing.
For County Treasurer—Lemuel B. Tripp, Whig.
For Superintendent of Poor—Henry W. Hurt, Know-Nothing.
For Justice of Sessions—Samuel C. Merritt, Whig.

It is almost the regular "Know-Nothing" ticket, with the exception of HORATIO SEYMOUR. Beware of this trick. Democrats, remember that there is no ticket which has the name of BENJAMIN BRANDRETH on it for Representative in Congress, and therefore the enemy, and so preserve your rights and Democracy.

N. B.—Twenty Thousand of these spurious tickets have been distributed the last week, and we desire to call the German by name.

The regular ticket can be seen at No. 41 Canal st., New-York.

NEW-YORK CITY.

New-York Horticultural Society.

The regular monthly meeting of this Society was held last night, at their rooms, No. 600 Broadway. The attendance was very meagre.

JOHN GREENOUGH, Esq., occupied the Chair.

Mr. MEADE, the Secretary, read the minutes of the last meeting, which were approved.

Mr. MEADE then moved that the Chair appoint a Committee to nominate officers of the Society for the ensuing year. The motion was seconded, and carried.

A large seedling pear, of a new variety, exhibited by Mr. TAYLOR, was reserved for transmission to the Committee on Fruits for examination.

Mr. MEADE, in referring to the losses recently sustained by the Society in the death of Mr. THOS. P. OWEN, Mr. J. D. LENOIR, (who with some of his family was lost in the *Arctic*, and who has not a surviving relative in this country,) and Mr. THOS. HOOG, Sen., moved a series of resolutions expressive of the warm sympathies of the Society in the regret and sorrow of the friends of the latter gentleman in his demise.

Mr. CHEETHAM seconded the adoption of the resolutions, and their insertion in full on the Society's minutes.

Mr. ANDREW REID spoke in terms of the warmest eulogy of Mr. HOOG, and of his sincere attachment to horticulture, evinced by the fact that he was one of the first and most successful cultivators of foreign plants in this country.

Mr. CHEETHAM also moved a resolution of condolence, relative to Mr. LENOIR's death, which was carried without dissent.

A variety of flowers, and several splendid cabbage heads were exhibited by JOHN CRANDUN, and highly admired.

The meeting then adjourned to the second Monday of the current month.

Serious Affray at the Northern Hotel.

The Third Ward Station-house was a scene of unusual excitement last evening, respecting a serious affray at the Northern Hotel, foot of Courtland-street, North River. It seems a target company, composed of some forty or fifty young men, visited Hoboken yesterday, and during the latter part of the afternoon a number of their friends assembled at the Northern Hotel to await the company's return. The party of young men had various drinks at the bar of the hotel, and owing to some trouble about a bank-note which was paid for the drinks, an altercation took place, and a man named J. W. HARRISON, who attended at the bar, was severely stabbed in the side by a knife in the hands of one of the party. The Police hearing the cry of murder, immediately entered the hotel, and arrested six of the party.

They were all conveyed to the Police-Station in Barclay-street, and committed to await a hearing in the matter. Meanwhile, the friends of the prisoners procured the attendance of Judge WOMAN, and appeals were made to his Honor for the liberation of two of the defendants, who are of high standing in the community. It being understood, however, that Mr. HARRISON's wound was of a dangerous character, the Magistrate refused to interfere in the case.

Dr. MCCURDY attended the injured man, and stated to Lieut. GOSLINGHAM, that the instrument entered near the right rib. The wound, he thinks, is not of a dangerous character.

The whole matter will be investigated this morning, before Judge OSBORN, at the Halls of Justice.

The Foreign Missionary Society.

The monthly meeting of the New-York and Brooklyn Foreign Missionary Society was held in the Committee room of the Tract Society's house, No. 150 Nassau-street, at 4 P. M., yesterday. GORHAM P. HEADLEY, Esq., presided. The meeting was opened with prayer by Rev. T. H. GRAVES. Rev. ALEXANDER H. WOOD, the Secretary, reported interesting intelligence from the Sandwich Islands, China, Constantinople, Borneo, and from the Cherokee nation, in our own country. Rev. Mr. MILLS, returned missionary from Ceylon, made an interesting statement of the labors of the missionaries in that field. The missionaries are unceasing in their efforts to spread the gospel, but lately a spirit of great opposition has arisen against them. The Island has, during the past Summer, suffered severely from the ravages of cholera and the failure of the rice crop. These afflictions the natives are taught to believe by some of their leading men are a visitation from the Gods for the toleration of the missionaries of Christianity in their midst. The principal of the teachers of this belief is a native, who was educated by the missionaries, though he had never made a profession of faith. He propagates his doctrines by tracts and circulars, thus making use of the weapons of the missionaries in his attack upon them. Still, Mr. MILLS thinks that these facts show a spirit of inquiry has been kindled in the native mind, which of itself is a via-tory for Christianity, as it will ultimately redounds to its glory.

The concluding prayer was made by Rev. Mr. DOTY, and, after saying the Doxology, the meeting adjourned.

The Courts.

Yesterday was the first day of the November Term, and, as is usual on the first days of the Term, the Courts looked unusually busy and did unusually little. The General Term of the Supreme Court was opened, but no decisions were rendered. In the Circuit some inquests were taken, but no jury trials were had. The Court of Over and Terminer was opened, but was adjourned till Friday. In the Superior Court nothing of general interest transpired.

The State Courts will hold no session to-day, on account of the election. The United States Circuit Court will, however, sit as usual.

The Trial of Capt. Smith.

In another column will be found a full report of the first day's proceedings in the case of Capt. JAMES SMITH, whose trial is now progressing in the United States Circuit Court, Judge NELSON presiding, on an indictment charging him with piracy, in having fitted out the brig *Julia Moulton*, from this port, for the slave-trade.

The first witness, who was the first officer of the brig, was still under examination at the adjournment of the Court. His evidence thus far goes to prove that he was engaged in this City by Capt. SMITH, for a voyage to Africa, to get a cargo of slaves for the West Indies; that the vessel was fitted out for this object at this port; that the voyage was undertaken, and on landing on the coast of Africa six hundred and sixty negroes were taken on board, who were conveyed to Cuba, where they were landed and the vessel burned.

The trial excites universal interest, it being understood that Capt. SMITH is the first person who has ever come to trial for a violation of the laws relative to the Slave-trade.

Western Force League.

The members of this Association held their third meeting last evening at Union Hall, Bowery, THOMAS W. FIELD, President, in the Chair.

The object of the League was stated by the President to be the combination of steady, able bodied men, competent practical farmers and the leading mechanical trades, to make a concerted settlement in Iowa. A Pioneer Committee, he stated, would go out to make the necessary examinations and report upon the location selected. Mr. J. H. WARDWELL, Esq., resident in the West, strongly urged the advantages to emigrate thither. Mr. STEVENS, just returned from a lengthy and careful tour of the Territories, seconded Mr. WARDWELL, and thought the advantages to each member of the pioneer-corps, such as proposed, could not be over estimated. Fifteen names were handed in to the League, making over 30 members in all. The initiation fee charged is $10. It is proposed to start early in the ensuing Spring.

The Recent Murder in Greenwich-street.

The investigation of the facts relative to the homicide which recently transpired at No. 56 Greenwich-street, was commenced, yesterday, before Coroner HILTON. The evidence elicited thus far goes to show that Mr. HOLMES interfered with the police officers of the First Ward, whilst they were making efforts to arrest a prisoner, and while they attempted subsequently to arrest him for this interference, he resisted, and in the struggle that ensued he drew a knife and stabbed Mr. GOURLEY, from the effects of which that unfortunate officer has since died. The investigation was to be resumed on Wednesday.

New-York University.

The election of members of the Council of the New-York University, for the ensuing four years, took place yesterday. It resulted in the election of the following gentlemen: LEONARD W. KIP, Esq., WM. W. PHILLIPS, D. D., THOMAS H. SKINNER, D. D., THOMAS E. DAVIS, Esq., CHARLES BUTLER, Esq., PAUL SPOFFORD, Esq., WM. M. VERMILYE, Esq., ORSMUS BUSHNELL, Esq.

The Common Council.

No sessions of the Boards of Aldermen, Supervisors and Councilmen were held last evening, owing to there being no quorum present. Most of the members were absent using their efforts to secure their political safety at the election to-day.

The Case of Dr. Graham.

The Court of Oyer and Terminer is to meet on Friday next, when it is expected that the bill of exceptions in the case of Dr. GRAHAM will be settled.

Robbery in the Street.

Three men who gave their names as JAMES ANDERSON, PATRICK LAMBERT, and JOHN RILEY, were arrested on a charge of having, on Friday night last, assaulted, knocked down and robbed Mr. DOMINICK RYDER, as he was passing through Eighth-street. The accused parties, on being confronted with Mr. RYDER, were identified by him as being those who attacked and robbed him, and were committed for a hearing.

Alleged Forgery.

Yesterday morning, a young Frenchman named ARTHUR LORRAUX, was arrested on a charge of forgery, preferred by Mrs. KENDLE, keeper of the large boarding house No. 45 East Nineteenth-street. LORRAUX has been living in style and dashing out largely. In order to pay his board bills in so elegant and fashionable an establishment, he is accused of resorting to forgery.

LONG ISLAND.

Caving in of an Embankment.

As a number of laborers were excavating an embankment at the corner of Grand and Seventh-streets, Williamsburg, yesterday, at about 2 P. M., it suddenly caved in, burying two men beneath the fallen mass of earth. One of them, WILLIAM CARR by name, was but slightly injured about the face and body, having been buried to the waist only. Another, named THOMAS HAYS, who was for about fifteen minutes under the dirt before he was dug out, was supposed to be dead, but, on being taken to the drug-store of Mr. LIVINGSTON, after due medical assistance had been rendered, he recovered his consciousness, and was taken to his home in North Seventh street.

CHILD BURNED TO DEATH.—An inquest was held in First-street near North-second, Williamsburg, by Coroner HANFORD, on Sunday afternoon, upon the body of a child named MARY MURPHY. The deceased, a child of two years, while playing near a stove on Friday evening last, ignited her clothing, and from the severe burns received, died on Saturday. The jury rendered a verdict of accidental death.

Conflagration in Baltimore.

An alarm of fire was made early on Saturday evening, caused by a heavy volume of black smoke issuing from the extensive piano factory of Messrs. KUABE, GEMBLE & Co., on Eutaw-street, a few doors north of Baltimore-street. The firemen were quickly at the scene of conflagration, but it baffled all their efforts to subdue the flames, until it was reduced to ashes.

The damage sustained by Messrs. KUABE, GEMBLE & Co., we were informed yesterday, would amount to $50,000, upon which there is an insurance of $4,000 in the Baltimore Fire Insurance office, $2,000 in the Associated Firemen's office, and we learn that there was a policy in a New-York office, and one in a Philadelphia office, but could not learn for what amount. It was said that the net loss upon the stock would be upwards of $10,000. The building in which the fire originated, belonged to Mr. JOSIAH SMALL, whose damage is about $6,000, upon which there is insurance to the amount of $3,500 in the Firemens' office. The building on the south of the alley which separated them, belongs to the estate of the late JACOB ALBERT, and was damaged to the amount of $2,000, which we learn was fully insured.

The fire communicated to two small buildings in the rear. The loss on the property was about $800, which was fully covered by insurance in the Firemen's office.

The fire also communicated to the three-story building adjoining on the north, owned by Mr. WASHINGTON DAUGHTY, which was destroyed down to the second floor. This building was damaged to the amount of $2,000, which is covered by a policy of insurance in the Firemen's office. The lower floor of this house was occupied by Mr. S. H. BOYD, as a jewelry store. His loss is set down at $700, on which there is no insurance. The upper floors were occupied by Mr. HERRICK, as a dwelling-house. A portion of the furniture was removed, but greatly damaged. He estimates his loss at $1,000, which is covered by insurance in the Firemen's office.

The next house which was injured was the rear portion of the residence of Mr. REYNOLDS on Fayette-street. It took fire several times, but a well-directed stream of water prevented serious loss. The damage was about $250 which is covered by insurance.

The heat was so intense that nearly every pane of glass in the Western Bank, immediately opposite, was broke, and all the paint on the wood work was blistered. The damage to this property was about $100, which is covered by insurance. Several gentlemen were at one time fair for the safety of portions of the Exchange, towards which the flames blew with great violence.—*Baltimore American, Nov. 6.*

SHOOTING.

Cricket Match between New-York and Paterson (N. J.) Clubs.

This match took place yesterday at Hoboken, and was the last of the season. New-York was victorious—as it was agreed to be decided by the first innings, if not time to play it out. Paterson went in first and got 47 and 117. New-York followed and got 51 and 45, with only two wickets lost—a pretty good show for 117—though Paterson would probably have won the game. In spite of the cold, a goodly number of visitors graced the ground. It was a very pleasant game and an annual match is promised, as well pleased were the New-Yorkers with the Patersons players.

The second Eleven of New-York played in good style. BARCLAY, though unfortunate in the first innings, made 21 in the second. J. HIGHAM made 19 and 10, and MAXWELL 10. The General fielded well, but only made 2 off his bat. The bowling of BAILLERIN and RICHARDS was good. Paterson will come out good players next season; they are good Cricketers and only want practice. They bat, field and bowl well. The following is the score:

Cricket on the Nore Sands.

On Saturday week the match got up for the especial entertainment of our prisoner guests, the Russian officers at Sheerness, took place on the Nore Sands, a novel cricket field, on which the sounds of storm and wreck gave pleasant place to the rattle of the bat and the gay voices of a holiday throng. Essex had the honor of taking part in the sports, the flower of the old eleven of Southend and Prittlewell being called out to sustain the character of the county against Sheerness, some who had begun to think they were almost stumped by old Time, being caught out again in youthful vigor in the field. The day being fine there was a large assembly upon the sands, gathered from Southend and Sheerness, and the Russian officers appeared to take interest in our fine old national game, doubtless thinking that our cricket balls on the Nore Sands, with their friendly accompaniments, were far more pleasant than our balls at Bomarsund. The game was decided in one innings, Sheerness scoring 10, and Southend 27; and at the close the company repaired to their boats again, those from Southend loaded with the laurels gathered on the sands, and with a British cheer closed the proceedings and parted from their Russian friends.—*Chelmsford Chronicle, (Eng.)*

The Accident on the Great Western Railroad.

CORONER'S INQUEST.

From the Chicago Tribune.

At the latest accounts, the Coroner's Jury were in session at Chatham, making diligent inquiry into the causes of the late terrible calamity, and endeavoring to fix the guilt—for guilt there was somewhere—upon the proper persons. From the testimony already published in the Hamilton *Reform Banner*, we take such portions as will clearly show the guilt or innocence of different persons whose names have been mentioned in connection with it:

Patrick Fyne, the night watchman at the gravel-siding, was examined: His duty was to clean the locomotive when it came in at night, and to call the men in the morning; he slept during the day; he remembers the morning of the accident; after he had fired up the gravel-train locomotive, Kettlewell, the driver of it, came out of his boarding-house, and asked if a train had passed, to which Fyne replied that a down train going East between 12 and 1 o'clock; he had to watch the conductor of the gravel-train (Twitchell) did not ask him about the train having passed; the morning was very foggy, and after the gravel train had gone out, Fyne went to bed, and shortly afterwards, hearing of the accident, got up and walked about a quarter of a mile down the line, and met Twitchell, the conductor, who informed him of what had occurred, and requested him to get two of the Company's men and drive him (Twitchell) by a hand-car to Windsor, which he was unable to do; about 4 o'clock that afternoon, witness again saw Pollard, the superintendent of gravel-pit, who took him aside, and giving him $2, said, "Pat, you had better mean out, or else you'll be arrested;" witness promised to send his wages and clothes after him; the witness took the money and went on foot to Detroit; on the following day, hearing he was accused, he resolved to give himself up.

Pollard, foreman at the gravel pit, testified that he was at Windsor at the time of the accident—went down on a train.

Twitchell, the conductor of the gravel train, was then called: He was aware of the Company's regulations, and knew that he should obey the rule which required them to for conductors of gravel trains—"always be off the main line at least 10 minutes before the proper time for regular trains to pass; and on no account to move out on the siding, until the regular train had passed." He received a copy of the time-table dated October last; on the 14th of October received a letter from P. C. Gregory, resident Engineer, instructing him particularly not to violate this rule, and warning him that he would be held responsible for any accident that might arise; went out in the day time once or twice after that letter on *the time of an express train*; there was a watchman employed to clean the engine, and note the passing of trains during the night; got up between 3 and 4 Friday morning, Oct. 27; asked Pyne, the watchman, whether the train had passed; he replied it had about 11 o'clock; he did not speak to Kettlewell about the train having passed, but when all was ready went out on to the main line.

Kettlewell, the driver of the gravel-train, was then sworn; had received a copy of the hours of running of trains, which came into operation on Monday, Oct. 23; in the early part of October he had, by direction of the conductor of the gravel train, gone on to the main track on the time of an express train; remonstrated against it at the time, and subsequently complained to Mr. G., the resident Engineer of the Western Division, who told him that the conductor of the train was principally responsible for its running. This was on the 12th or 13th of October. On the 25th and 26th of October the gravel train was again out on express train time. On the evening before the accident, witness gave the watchman his watch; was called about 3½ o'clock, and after going round to his engine, asked the watchman what time the train had passed; he replied about 1 o'clock; witness then proceeded with his work, and between 4 and 5 o'clock went out with a train of gravel.

T. C. Gregory, resident engineer on the Western division, was then examined; he proved that on the 12th or 13th, Kettlewell, with train, complained to him that he had been ordered by Twitchell to go out on the time of an express train; witness told him that the conductor was principally responsible for the running of the train; on the 14th Oct. wrote to Twitchell, cautioning him strongly against running out on express train time, and warning him that he would be held responsible for anything that might occur from a breach of the instructions; considered that the Company's rules were well and carefully framed, but if carried out properly would have prevented the possibility of this accident.

Thomas Mason, a sub-contractor, sworn: stated that after the accident he met Twitchell, the conductor, who requested him to conceal him in his house until he could how matters would go, and further asked him what he had better do. "Good God, Mason," he said, "I have killed forty or fifty men; could you have pacified me any how, and what in God's name shall I do?" Witness persuaded him to stand his ground and face it out; Pollard came subsequently to witness' house and went up stairs to talk with Twitchell.

RUMORED MURDER OF TWO CHILDREN.—We last night heard an intimation that two children had been murdered in some part of the city. We immediately set to work to ferret out the facts, but we have experienced much difficulty in the task. We called this morning at the different police stations, at the offices of the principal magistrates, and at the County Prisons; and have had interviews with the Coroner and the principal officers in the police department, but we have so far been unable to obtain any satisfactory information. The police who know anything of the facts, have been placed under a strict injunction of secrecy, and the authorities appear to be actively engaged in the effort to bring to light what appears to be involved in

DR. HOWARD, Surgeon Dentist, No. 57 Walker-street, between Broadway and Church-street, has invented a new method of inserting artificial teeth, which is entirely free from the objections to which all others are liable. Persons who have lost their teeth can have them replaced by the most beautiful and life-like imitations, and at prices which will be found very moderate. Those who have teeth which are decayed, can have them filled with a material which will last as long as the teeth themselves, and which will not change color. Those who have teeth which are loose, can have them made firm and useful. Those who have irregular teeth can have them regulated. Those who have lost their palates can have them restored. Those who stammer in consequence of imperfect articulation, can be cured. Those who have children with irregular teeth, can have them regulated.
